Public Comments

Mr. Lee stated the “Red Flag” laws are unconstitutional and will put City and County officers in danger and jeopardy.

Mr. Victor Rotunno, Head Golf Coach for the Hobbs High School, voiced concerns regarding Rockwind Community Links and the Golf Pro, Mr. Steve Schoch. He stated Rockwind saw a steady decline in the seven months the course went without a Golf Pro, and the decline has continued since the hiring of Mr. Schoch. Coach Rotunno stated the $13 million investment in Rockwind Community Links is falling to waste.

Discussion

Hobbs Hispano Chamber of Commerce - Update on Census Activities

Ms. Susana Arvizu, Board President of the Hobbs Chamber of Commerce, thanked the Commission for its support in the 2020 Census process. She stated New Mexico is a difficult state to count with a large number of Hispanic and Latino residents not being counted. She explained that the fear of putting themselves in jeopardy because of their legal status is creating a barrier in front of these residents. Ms. Arvizu state the current goals of the 2020 Census Committee are to educate the public by creating a newsletter printed in English and Spanish, visiting the Hobbs High School to educate students, promoting jobs with the Census Bureau and breaking down the barriers by answering immigration questions.

Commissioner Gerth commended Ms. Meghan Mooney, Communications Director, for her work with the 2020 Census Committee. He also thanked Ms. Arvizu and stated he would like her assistance in educating the residents in his area about the importance of the 2020 Census.

Commissioner Taylor also requested assistance in educating residents, in her area, regarding the importance of the 2020 Census count.

Mayor Cobb stated complete count numbers will assist Lea County and Hobbs in obtaining future funds from the State.
**Action Items**

*Consideration of Approval to Enter into a New Mexico GSA Contract with WEX for Fleet Gas Card Management Services*

Mr. Toby Spears, Finance Director, explained the agreement and stated the City of Hobbs is implementing an Enterprise Asset Management (EAM) system to better track and account for the City’s assets. He further stated the WEX fleet card system has the ability to push data into readable formats for uploading into the EAM system. The WEX system also exempts the City of federal excise taxes for various types of fuel. Mr. Spears stated the Hobbs Express implemented this system in May of 2019, and the City is requesting the approval of this agreement for other City departments to use this service. He stated by attaching a card to a vehicle, there will be more control and better accounting.

In response to Commissioner Taylor’s question, Mr. Spears stated the system will provide reports and will track maintenance of each vehicle.

There being no further discussion, Commissioner Taylor moved to approve a New Mexico GSA Contract with WEX for Fleet Gas Card Management Services. Commissioner Newman seconded the motion and the vote was recorded as follows: Mills yes, Newman yes, Calderón yes, Gerth yes, Penick yes, Taylor yes, Cobb yes. The motion carried. A copy of the supporting documentation is attached and made a part of these minutes.

*Resolution No. 5906 - Approving the Subdivision of Property Located Southwest of the Intersection of Joe Harvey Blvd. and Grimes Street and Affirming a Variance Granted by the Planning Board Allowing a Subdivision of Property Creating Lot(s) Not Accessible from a Public Street*

Mr. Kevin Robinson, Development Director, explained the resolution and stated prior to execution and recordation of the previously approved subdivision, Horizon Partners, LLC, the developer, has decided to reconfigure the tracts being created. He stated the previously approved subdivision created two tracts not accessible from a public street. The newly proposed subdivision will create three tracts without access from a public street. Mr. Robinson stated the Planning Board reviewed the previous subdivision on September 17, 2019, and voted 5–0 to recommend approval with a variance and the Commission approved the subdivision on October 7, 2019. The Planning Board reviewed the current subdivision on January 21, 2020, and voted 6-0 to recommend approval with a variance. Mr. Robinson stated variances from Municipal Code Title 16 are allowed providing the finding that compliance will result in an extraordinary hardship as stated in Hobbs Municipal Code 16.04.020(A) as follows:
A. Hardships. Where the Planning Board finds that extraordinary hardships may result from strict compliance with this title, it may vary the regulations contained in this title, so that substantial justice may be done and the public interest secured; provided that such variation will not have the effect of nullifying the intent and purpose of such regulations.

There being no discussion by the Commission, Commissioner Penick moved to approve Resolution No. 6906 as presented. Commissioner Newman seconded the motion and the vote was recorded as follows: Newman yes, Mills yes, Taylor yes, Calderón yes, Penick yes, Gerth yes, Cobb yes. The motion carried. A copy of the resolution and supporting documentation is attached and made a part of these minutes.

Resolution No. 6907 - Approving an Affordable Senior Housing Funding Commitment and Letter of Financial Support to YES Housing, Inc., for a Proposed Affordable Senior Housing Complex to be Located Northeast of the Intersection of Berry and Grimes Streets

Mr. Robinson explained the resolution and stated YES Housing, Inc., has proposed to finance and develop a 56-unit affordable Senior Housing Complex on developer-controlled property located northeast of the corner of Berry and Grimes. He stated the project will be restricted to seniors with all of the proposed units’ income and rent restricted to 60% or below area median income. Mr. Robinson stated the Total Development Cost (TDC) is anticipated to be +/- $13,250,000.00 so a local contribution of 10% of TDC would earn the developer ten points in scoring toward LIHTC funding. He further stated Hobbs Municipal Code Chapter 3.14 allows the City to extend financial incentives to stimulate the development and construction of Affordable Senior Housing projects for multi-family housing. In order to qualify, the project must be considered as an Affordable Housing Project according to the City's Affordable Housing Plan. Mr. Robinson stated the project must also be approved and funded by the NMMFA and comply with State MFA rules. He stated this resolution commits the City to financial support in an amount not to exceed $1,325,000.00 to include waiver of development fees to YES Housing, Inc., if the proposed project is funded by the State and developed. The Letter of Financial Support gives approval to the Project and commits the funding, contingent on the developer receiving an allocation of LIHTC during the 2020 cycle.

Ms. Michelle DenBleyker, Vice President of Real Estate Development with YES Housing, Inc., stated the two-story senior affordable housing building is one of two projects in Lea County. She stated there are 14 applicants for LIHTC credits for 2020, with most of the units being constructed in Albuquerque, New Mexico.
There being no further discussion, Commissioner Gerth moved that Resolution No. 6907 be approved as submitted. Commissioner Newman seconded the motion and the vote was recorded as follows: Newman yes, Mills yes, Taylor yes, Calderón yes, Penick yes, Gerth yes, Cobb yes. The motion carried. Copies of the resolution and application packet are attached and made a part of these minutes.

MEETING DATE: February 18, 2020

SUBJECT: City of Hobbs Booster Pump Station and Reservoir Electromagnetic Flowmeter Replacement Project.

DEPT. OF ORIGIN: Utilities

DATE SUBMITTED: February 10, 2020

SUBMITTED BY: Tim Woomer, Utilities Director

Summary:

There are five (5) Booster Pump Stations (BPS) and Reservoir sites supplying potable water to the City of Hobbs. The system is comprised of a total of fourteen (14) high volume booster pumps and associated appurtenances. The five (5) existing BPS sites (HIAP, HYDRO, Del Norte, Jefferson, & Snyder) require new electronic water flow metering to accurately measure the water being delivered to the citizens of Hobbs. Each of the fourteen (14) booster pumps will be fitted with a new electromagnetic flowmeters and automatic butterfly valves.

These process upgrades will allow the City to obtain accurate and real time flow delivery data from each booster pump station. This data will be compared to the well production flow into the reservoirs and system delivery flow using the service meter data to assist in the detection of possible leaks and other sources of water losses within the water distribution system.

Accurate water metering and sufficient rate structure to sustain the utility are the fundamental criteria used to obtain state and federal grant and loan funding.

This project replaces existing metering equipment that is old, outdated, and beginning to fail resulting in inaccurate measurement of system flows. Utilities Department crews will install the new electromagnetic flowmeters, automatic butterfly valves, associated pipe fittings, and communication/connection to the Potable Water SCADA System.
